1.2 Система контроля и оценки освоения программы общеобразовательной учебной дисциплины

1.2.1. Организация текущего контроля успеваемости, промежуточной аттестации по итогам освоения общеобразовательной учебной дисциплины

Предметом оценки освоения учебной дисциплины являются личностные, метапредметные и предметные результаты.

Контроль и оценка результатов освоения учебной дисциплины осуществляется в процессе проведения аудиторных занятий и выполнения обучающимися внеаудиторной самостоятельной работы (заучивание лексических единиц наизусть, выполнение грамматических упражнений, подготовка рассказов и устных сообщений, составление диалогов по образцу их заучивание, пересказ текстов, заполнение анкеты, написание личного письма, эссе, подготовка реферата, компьютерной презентации, визитной карточки, индивидуального проекта, подготовка к участию в ролевой/деловой игре).

В ходе изучения учебной дисциплины осуществляются следующие формы и методы контроля и оценки результатов обучения:

- входной контроль
- текущий: оценка выполнения практических заданий и внеаудиторных самостоятельных работ;
- промежуточный: контрольные работы № 1, № 2, № 3
- итоговый контроль: оценка полученных знаний и умений на дифференцированном зачёте.

Итоговый контроль освоения учебной дисциплины осуществляется на дифференцированном зачете.

Условием допуска к дифференцированному зачету является наличие положительных оценок текущих аттестаций за все месяцы и оценок за

контрольные работы № 1, 2, 3. Оценка текущей аттестации складывается из оценок полученных обучающимся в ходе текущего контроля знаний и умений.

Дифференцированный зачет проводится в форме итоговой контрольной работы. Время на выполнение работы – 90 минут.

Итоговая контрольная работа представлена в двух вариантах и включает в себя 2 задания по чтению: задание 1 – Установите соответствие между текстами и их заголовками, задание 2 – True/False/Not Stated. При выполнении работы запрещается пользоваться словарями и какими-либо справочными материалами.

Вариант 1 Задание 1

Прочитайте текст. Определите, какие из приведённых утверждений соответствуют содержанию текста (True), какие не соответствуют (False) и о чём в тексте не сказано, то есть на основании текста нельзя дать ни положительного, ни отрицательного ответа (Notstated).

Many Americans enjoy running marathons – a forty-two kilometer race. More than three hundred marathons were held in the United States last year and that number is expected to grow.

The New York City marathon is held every year on the first Sunday of November. It is a big sporting event with thousands of participants. One can see celebrities and famous sportsmen among the marathon runners. A famous cyclist, whose excellent physical condition helped him complete the marathon in less than three hours, admitted that the race was ‘the hardest physical thing he had ever done’.

While the New York City marathon is the biggest, the Boston Marathon is the oldest one. Boston’s is held in April. Boston is famous for the fact that Roberta Gibb became the first woman to unofficially run that marathon in 1966. At that

time, people did not believe women could run marathons. The Olympics did not hold a women's marathon event until 1984 in Los Angeles, California.

Today's marathons welcome everyone. The popularity of the sport has spread among people who are interested in health and fitness. Many middle-aged people like to spend a weekend visiting a new city and running a marathon there. Some magazines call the middle-aged people of today the 5 'marathon generation'. Forty-three percent of marathon runners in the United States are 40 years old or older. There are many organisations for marathoners. Nowadays many local running clubs offer training programmes that can prepare runners for the big race.

A marathon really starts several months before the race. You need to run about five days every week to prepare. Most runs should be for half an hour. You should also try to run for an hour or more each Sunday. This is a very basic way for an average runner to prepare. What you can't prepare for is running in a big marathon with thousands of other participants. A marathon is in many ways a social event. There is a sense of community. The spectators are as much a part of the race as the runners. Almost every age group is present. At the start of the race there is a lot of shouting as the runners want to release some tension. They have three to five hours of hard running ahead of them.

However there are people who want to run farther. For them ultra-marathons are organised that take running to a different level. An ultra-marathon is any race longer than a marathon. One of the oldest ultra-marathons is held annually in California, USA. It is 160 kilometers long. Last year, 210 people finished the race. The winner, Graham Cooper, finished in eighteen hours and seventeen minutes.

Вариант 1 Задание 2

Вы проводите информационный поиск в ходе выполнения проектной работы. Определите, в каком из текстов А–F содержатся ответы на интересующие Вас вопросы 1–7. Один из вопросов останется без ответа. Занесите Ваши ответы в таблицу.

1. What kind of communication problems can one face in real life?
2. What are different opinions about social networks?
3. Why do some people call social networking sites “time eaters”?
4. What are the hidden dangers?
5. What kind of new communication opportunities are provided by social networks?
6. What are the new prospects in education?
7. What is a fact about worrying time statistics?

A. The popularity of social networking sites such as V Kontakte, Facebook, MySpace, and Classmates has risen more than four times from 2005 to 2009. Many users say these sites are good for our society, but others are sure that there are more dangers in them than benefits. Your attitude to such websites depends on your age, job, interests and way of life.

B. Social networks promote communication with friends and family, they give people necessary and useful computer skills and teach them to express their ideas in a clear way. Another thing is that the sites let people create new relationships and reconnect with old friends. In every way, more communication, even online, makes connections stronger.

C. Social networking sites make people spend more time online and less time communicating face-to-face. The sites have many time-wasting activities. You stay online longer than you planned and do nothing serious or important. Experts say that teenagers spend about nine hours every week on social networking sites.

D. Psychologists say that social networking sites can have serious disadvantages. It is hard for children to have real conversations and make friends. They become selfish personalities and lose interest in real life. Parents spend less time with their children and all members of the family spend less time with each other because they are using the Internet instead of communicating in person.

E. Internet users spend most of their time on social networks and blogs. Users in the USA spend about five and a half hours every month on their favourite site. And the number is growing. Russians spend 6.6 hours monthly on social networking sites. It is more than people in any other country. For example, in Europe it is 3.7 hours a month.

F. New research shows that social networking sites can be used in schools. Teachers should find ways to use them in class. It would help students to learn how to get information from Internet resources and share it with classmates. Students would also be able to express themselves creatively and present themselves better.

Circus story

I was almost late for school. I rushed into my class when the bell was ringing loudly.

To my surprise, Laura was not in the classroom yet. Laura was a newcomer in the class. She joined us at the beginning of that year and nobody knew where she had gone to school before. She was a quiet red-haired girl, very serious and

hardworking. Nobody knew her ever to fail to do her homework. Why wasn't she at school now?

Though we were not very close friends, I decided to drop into her house on my way home. It was a small brick house at the corner of the street. Laura's family rented it when they moved to our town. A slim, elderly lady in a jumper and sports trousers opened the door. I explained to her who I was and she smiled warmly. She told me that Laura had got a bad cold but would be happy to see me, and showed me into her room.

Laura's cheeks were a bit red with fever but she was really glad to see me. We talked for a long time and I found out a lot about her and her family.

The lady who let me into the house was Laura's grandmother. Laura told me that when her granny was young, she worked in a circus. In fact, she started working there when she was six. Her mum and dad were acrobats and they took her into their performance. The public liked the cute little girl, and Amy (yes, the elderly lady was just Amy at that time) enjoyed wearing glittering costumes and getting applause. What she didn't like was wearing a wig and a clown costume, but her parents often got her to take part in her twin brothers' clown performance.

'I really can't understand why she hated it so much. She looked so pretty in that outfit, didn't she?' commented Laura and showed me an old photo of a small girl with painted freckles and a red wig that covered half of her face.

'She probably worried that her classmates would make fun of her,' I suggested. 'You know how cruel kids can be sometimes...'

'Yes, I know,' said Laura and her smile faded as if it recalled some bad memories. 'But my granny was a homeschooler. The circus travelled all over the country and even abroad. They never stayed in one place for a long time and she could not attend school. She learned at home. Or, should I say, in a caravan because they all lived and travelled in a caravan.'

'It was exciting, I guess,' I said. 'But not easy.'

'Oh, yes, it was difficult but her parents, brothers and the other circus people helped her. Granny was good at languages. Her co-workers came from different countries and taught her their languages. Travelling and communicating with people is good language practice, isn't it?...'

Вариант 2 Задание 2

Вы проводите информационный поиск в ходе выполнения проектной работы. Определите, в каком из текстов А–F содержатся ответы на интересующие Вас вопросы 1–7. Один из вопросов останется без ответа. Занесите Ваши ответы в таблицу.

1. What are the complications of bad sleeping patterns?
2. What steps can prepare our bodies for going to sleep?
3. What is the impact of sleepless nights at exam time?
4. Why is sleep so important for people?
5. What can be dangerous about watching a movie late at night?
6. Which lesson should help children sleep well?
7. In what kind of environment do people usually sleep best?

A.It's common knowledge that people sleep best in a dark room that is slightly cool. It's important to close your blinds or curtains and make sure they're heavy enough to block out the light. You can add extra blankets or wear pyjamas if you're

cold. Note that an uncomfortable bed, heat and noise can ruin a good night's sleep. A TV is also a distraction.

B. If you don't sleep enough or have a disturbed sleep you can get heart disease, high blood pressure and even diabetes. People who don't sleep enough get colds and flu more often than those who do. Moreover, recent research proves that poor sleepers gain weight more easily than people who sleep well. Extra kilos are the reaction of the body to the stressful sleepless situation.

C. Think twice before watching a movie late at night. Don't spend sleeping time on endless computer games. The thing is that by getting up and going to bed at the same time every day, even on weekends, you teach your body to follow a healthy regime. You'll quickly fall asleep, will have a good night's sleep and will wake up at the expected time feeling fresh and active.

D. Some easy steps can prepare your body for going to sleep. You probably have some regular bedtime habits, even if you don't realise it. Brushing your teeth, taking a shower, reading a book and setting your alarm clock may all be part of your evening routine. Remember that you should perform these activities in the same manner and in the same order every night.

E. Sleepless nights at exam time are very bad for students. If you prepare for your exam late at night, it will not improve your performance during the exam. On the contrary, it will affect your ability to concentrate, to react quickly and to analyse information. Recent research shows that the results of the tests written after sleepless nights are lower than usual grades.

F. If you think that during sleep, the brain rests, you're mistaken. It's a common myth about sleep. Sleep is definitely needed — but it's not your brain that needs to rest, it's your body that needs to relax. Your brain is still working when you're asleep, controlling physical functions like breathing and your heart beat. However, because the brain does not have to go through the constant stress of thinking, you get up refreshed and recharged. Запишите в таблицу выбранные цифры под соответствующими буквами.
